Cook's Log is the quarterly journal of the Captain Cook Study Unit
A Society for everyone interested in James Cook (1728-1779)

The CCSU was formed in 1975 with officers in the USA and Australia. Currently, all four officers
live in the UK.

Each issue of *Cook's Log* contains articles on many aspects of James Cook's life
and those associated with him.

The index is based on the article (item) headings rather than the contents of the articles.
